HOW TO FUND YOUR LOBSTR ACCT WITH COINBASE / MOONPAY

LOCATING YOUR PUBLIC ADDRESS

Before you can use your LOBSTR wallet you will need to fund it with XLM.

We will walk you through two methods:

Funding externally from Coinbase & Funding from Moonpay, which is located inside your LOBSTR app. Both methods are covered as Moonpay does not yet work smoothly for most USA based purchasers. You may also choose to fund your LOBSTR wallet by sending any XLM you already hold in another wallet to LOBSTR.

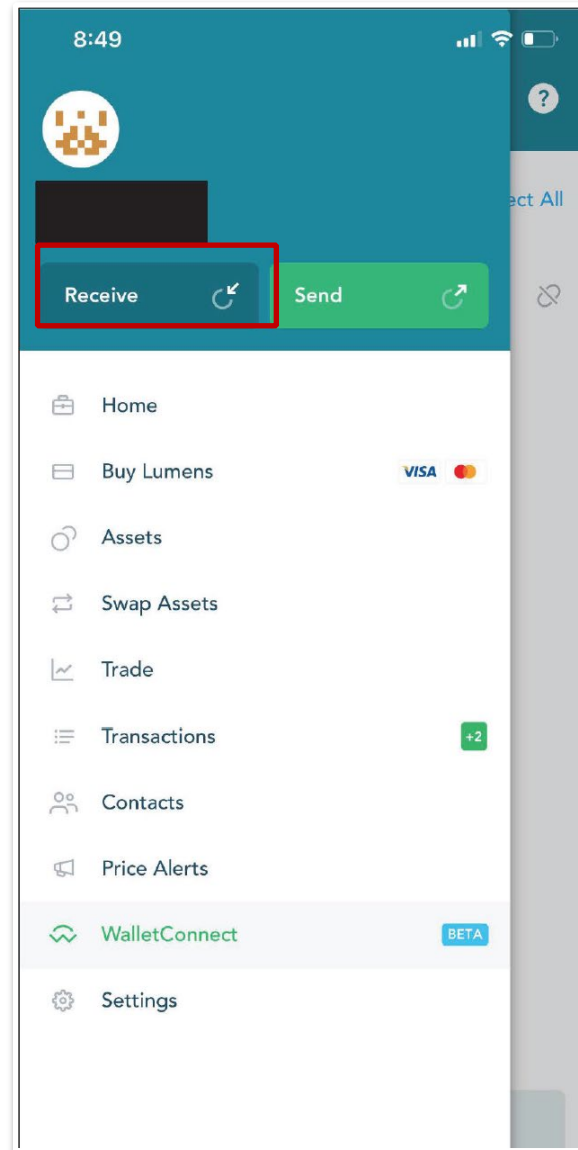

LOCATING YOUR PUBLIC ADDRESS ON LOBSTR

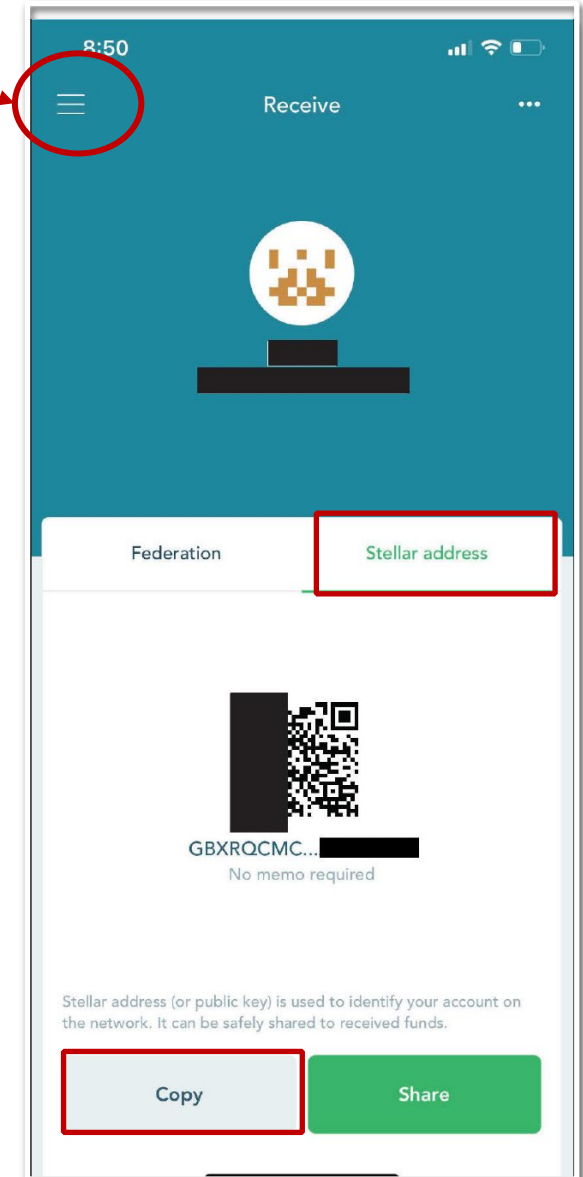

1. From the LOBSTR menu, select "Receive"
2. Next, select the Stellar address tab

Copy your address, as you will need it to send funds from your Coinbase account to LOBSTR.

This address is your public address. Think of it like your email or mailing address.
